## RUSTIC FINISH TILES

GVT come in fabulous varieties ranging from Matt to Glossy finishes. Using the best technology & machinery imported from Italy & Spain, the products manufactured are of excellent quality. High quality glaze mixture is imported from abroad depending on tile type and finish. Such a glaze is heated in furnace to impart the required finish which can be polished for fine quality product. Also, Nano resin is applied on surfaces to fill up pores and small gaps which also prevent dust accumulation. Varmora GVT are suitable for all kinds of surfaces and interior and exterior applications. Their looks are like natural marble, stone or any other kind of elements of nature.

### PRODUCT FEATURE:

- Quality Vitrified Tiles with glazed surfaces
- Depending on tile type, special glazes are imported
- High quality machinery are used for furnace heating & creating designs
- Nano resin is applied on surface of tiles to fill pores, making them dust-free
- High quality polishing imparts Rustic

## SUGAR FINISH TILES

Sugar Finish tiles incorporate characteristics of scratch resistance & surface glimmer effortlessly. Made from sturdy materials, a sugar finish is imparted on tile surface, which improves scratch resistance and at the same time, imparts a distinct gloss. Application of sugar-like transparent granules are spread on tile and then heated in the kiln. These granules melt inside and create a glittering layer over the tile to make it look more shiny and sparkling. Such series has more friction which prevents slipping & also appears more realistic in terms of surface luster. It is suitable for interior as well as exterior decoration for heavy traffic areas.

### PRODUCT FEATURE:

• QRT tiles made from special treatment of the surface • Made by usual process of heating layers on furnace • Surface is roughened in a manner that prevents slipping and imparts a distinct sheen • An effective combination of surface toughness & beauty as well as Scratch Resistance

Tiles Shown: MILOS GRISS

### PRODUCT USP:

- Digital Printing +
- Extra Sheer Shine
- Low Water Absorption
- Eco Friendly
- Zero Maintenance
- Random Design
- Anti Skid
- Glitter Effect
