HI-GLOSS FINISH TILES

Hi-Gloss Tiles are made using a special transparent glass. With extra colors, its beauty and strength is enhanced by a further level of impact. Special transparent glass is applied on the surface and the tile is heated in a furnace to impart a high-gloss, eye-catching crystalline glass. A fine layer of glass glass is also applied on surface which gives extra shine and brightness. This imported granules is spread over special equipment for most smooth and transparent surface. With silky polishing, this tile is imported a superior glass that is required by owner. This tile seems to highly suitable for indoor wall and floor applications for Residential & Commercial areas. This is 100% replacement for luxury Marble due to its high-gloss, high durability & scratch resistance.

PRODUCT FEATURE:

• Impact & scratch resistant with special transparent glass • High resistance tiles with extra color giving high-gloss effect • High quality imported glass is adhered on surface and is best tested in furnace • This glass is polished, and it is polished with special technique and applicable to provide high-gloss of surface.

PRODUCT USP:

-  Digital Printing
-  Abrasion Resistance
-  Low Water Absorption
-  Eco-Friendly
-  Flame Retardant
-  High Resistance
-  100% Replacement for Italian Marble
-  Zero Maintenance
-  Fusion Design
-  Impactful Super Shine
-  Gravel Application

SUGAR FINISH TILES

Sugar Finish has independent characteristics of scratch resistance & surface glossier appearance. Made from sturdy materials, a sugar finish is applied on the surface which imparts scratch resistance and at the same time, imparts a mirror gloss. Application of sugar like transparent granules are spread on the and then heated in the sun. These granules melt inside and create a glazing layer over the tile to make it look more shiny and sparkling. Such surface has more texture which prevents staining & also becomes more reliable in terms of surface luster. It is suitable for interior as well as exterior decoration for living rooms, areas.

PRODUCT FEATURE:

• 20ft life span, from special treatment of the surface • Made by using process of heating types on surface • Surface is independent technology that prevents staining and provides a mirror finish • An effective combination of surface brightness & texture as well as Scratch Resistance

PRODUCT USP:

- Digital Printing
- Color Blend
- Low Water Absorption
- Tear Friendly
- Zero Maintenance
- Random Design
- Anti Salt
- Odor Free

METALLIC FINISH TILES

Metallic Finish has impact a stone that has been highly processed, utilizing the best technology, metallic liquid glass or metallic flakes are applied on surface, compressed & fired to form a metallic metallic finish. This same technology of the latest metal. This metallic glass is applied through an advanced machine which results in creating layer of metallic particles on surface and helps to penetrate inside. After firing up to 1200°C, it gives a dimensional sparkling and glistening look. Shallow surface scratches can be easily introduced via the digital pressing to achieve aesthetic perfection. It has a wide of authentic metallic appearance, as it is highly suggested for home applications in bathroom, living room, kitchen etc. and can also ideally be used for wall cladding in domestic and commercial areas.

PRODUCT FEATURE:

• Made from special glass that imparts perfect shine • Impart glass crystals of liquid metallic glass on metallic base • The glass is applied on surface and fused in a fluid and even coating • The surface is polished with special technique to impart a shimmering, metallic metallic shine

PRODUCT USP:

- Metallic Effect
- Scratch Resistant
- Low Water Absorption
- Easy to Clean
- Elegant Design
- Easy Laying Effect
