SUGAR FINISH TILES

Sugar Finish has independent characteristics of scratch resistance & surface glosses effectively. Made from sturdy materials, a sugar finish is applied on the surface, which improves scratch resistance and at the same time, imparts a distinct gloss. Application of super-line transparent granules are spread on the top then heated in the kiln. These granules melt inside and create a glazing layer over the top making it more shiny and sparkling. Such surface has more texture which prevents staining & also creates more stability in terms of surface's color. It is suitable for interior as well as exterior decoration for living rooms, areas.

PRODUCT FEATURE:

• Soft Non-Slip Non-slip treatment of the surface • Made from sturdy materials of leading top class factories • Surface is highly resistant to thermal shock, staining, oiling and requires a distinct finish • An effective combination of low heat resistance & easy as well as Scratch Resistance
